

# Greenbelt Police Department 2017 Annual Report Internal Affairs Investigations

In accordance with Department policy and CALEA Standard 52.1.5, an annual statistical summary based on the records of internal affairs investigations is to be compiled and made available to the public and agency employees. In addition to the records of the internal affairs investigations, a statistical summary of all complaints and dispositions is also to be compiled.

For the purpose of this report, all traffic collisions involving departmentally owned vehicles have been included. Those collisions which were deemed by the Departmental Collision Review Committee to have been preventable will be listed in the “Sustained” column. Those collisions which were not preventable are listed in the “Exonerated” column.

Finally, an analysis of use of force incidents is to be completed annually to reveal patterns or trends that could indicate training needs, equipment upgrades, and/or policy modifications.
