

**CITY OF GREENBELT
GREENBELT ETHICS COMMISSION**

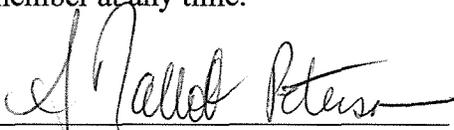

Report to City Council:

Background & Review

The Greenbelt Ethics Commission has reviewed the City's Ethics Ordinance – Ordinance #1318. The Commission is concerned that with only three (3) members appointed to the Commission, there may be instances where one member may not be available for committee business such as a review of an ethics complaint.

Recommendation

The Commission recommends that an alternate non-voting member be appointed to the committee. They further recommend that this member attend all commission meetings in order to be current on commission business and thus be prepared to serve in the absence of an appointed voting member at any time.
