City Manager's Report Week Ending September 13, 2019

1. Included separately in a confidential envelope are legal bills from Alexander & Cleaver from January 2018 to present.
2. Included separately is a confidential memo on personnel and legal matters, including the FCC Order.
3. In follow-up to email, attached is a hard copy of the 2017 Community Questionnaire. Please share any suggestions for the 2019 Questionnaire. The topic will be on the September 23rd agenda. Staff will be working on making the questionnaire available in French and Spanish.
4. Attached is a revised draft letter to WSSC to reestablish discussions between the City, GHI and WSSC to improve GHI's water and sewer infrastructure. This version of the draft letter was submitted by the GHI Board.
5. Also attached is a draft letter of support for Sustainable Maryland Certified funding from the University of Maryland.
6. Met with the Friends of the Greenbelt Museum Board regarding the 1987 City/FOGM agreement. I will meet with the Board again in October as we work together to develop a recommended new agreement to Council. In the interim, I will consult with City staff to prepare information on the agreement and budget development.
7. Staff is working on several items related to the Greenbelt Lake Dam Project. In response to an inquiry to harvest native mussels, staff is confirming safety and any State requirements related to the construction permits and State funding. It appears that Anacostia Watershed received permission from a State entity in advance of approval from the State. Mr. Sterling and Ms. Hruby are following up with both entities. The last information is that the mussels will stay in Greenbelt Lake, yet be relocated to deeper water to avoid exposure given the lower water levels.
8. Police Department is investigating two calls about a large snake in the Lake. Unfortunately, animal control officers have not found the reported snake and video is not very clear.
9. Met with and/or corresponded with staff and City Solicitor regarding personnel, operational, and legal matters.
10. Ms. Liggins reported that the Community Center Multipurpose Room is reserved for the Strong Towns lecture previously reported by email. The specifics were not confirmed. There has been no update on if or how College Park has funded the activity.
11. Attended the regular Council meeting, the Work Session on the proposed NRP residential development, and met with the Friends of the Greenbelt Museum.

12. Assistant City Manager

- a. Began drafting and met with Ms. Ard on the 2019 Community Questionnaire.
- b. Staffed a CRAB Meeting.
- c. Researched CB-17-2019.

13. City Treasurer

- a. The electronic timesheet project is progressing as expected. The first “parallel” pay run (using the old and new system) will occur the first payroll in October.
- b. Continued working toward completing the FY 2019 financial statements.

14. Information Technology

- a. Researched and ordered UPS's for desktops.
- b. Updated Truck Inspection software on 4 MDT's – State of Md.
- c. Processed PO's for camera work at Schrom Hills Park and GAFC.

15. Economic Development

a. Business & Community Engagement

- Meetings:
 - Career consulting company
 - Local bank
 - Cleaning company
 - Publishing startup

b. Economic Development Admin

- Working with staff to coordinate on initiatives that span across the community.
- Ongoing weekly outreach to Greenbelt business community.

Ref: Proposal of WSSC for renewal of water supply and sewer pipes at Greenbelt Homes, Inc.

Dear Ms. Reid,

The Greenbelt City Council and the Greenbelt Homes, Inc. (GHI) Board of Directors respectfully request re-establishment of negotiations regarding the 1958 WSSC/GHI/City tripartite agreement and proposed improvements to GHI's water and sewer infrastructure.

GHI appreciates the service WSSC has provided to our housing cooperative over many years, and pledges to consider in good faith any proposal from WSSC for renewal of infrastructure where such proposal conforms with the terms of the current tripartite agreement. GHI will promptly review any WSSC proposed design for the replacement of water and sewer pipes serving GHI's 579 masonry homes, approval of which proposal will not be withheld without just cause.

Ms. Reid, your personal participation in these discussions is requested and is essential to achieve a successful resolution. The Council and the GHI Board appreciate your consideration to address this unique, historic community's infrastructure needs, and thereby to promote its long-term sustainability.

The City and GHI look forward to working cooperatively with WSSC to bring these long-time discussions to closure. Please contact Mr. Eldon Ralph, GHI's General Manager, to discuss next steps and scheduling at your earliest convenience. Mr. Ralph can be reached by phone at 301-474-4161, ext. 1168, or by email to <e.ralph@ghi.coop>.

Sincerely,

Emmett Jordan, Mayor

Re: Support for Sustainable Maryland

Dear Dean Linebaugh,

As you deliberate the University of Maryland's state budget in the coming months, the City of Greenbelt urges you to allocate funds to the Environmental Finance Center's (EFC) Sustainable Maryland (SM) program.

As a certified municipality of the Sustainable Maryland (SM) program since 2014, we have firsthand experience with the benefits of the program. We expanded our Green Advisory Committee on Environmental Sustainability so its members would be a part of the Green Team, and using the concept of Dynamic Governance, our Green Team has grown to include many Circles (or task forces) that touch upon the Actions for Sustainable Communities.

The City of Greenbelt acquired certification in 2014, and then re-certified on October 10, 2017 with 600 points. We have cross referenced the certification program with our existing Sustainability Framework and were pleased to see that there is a huge amount of overlap. Green Team members and elected officials have attended Leadership Trainings and workshops which have proved useful to introduce to, or clarify, sustainability concepts for our members and residents. We have relied on SM staff for clarification with Maryland Energy Administration grants and other projects.

The City of Greenbelt represents over 24,000 Marylanders who benefit from the SM program. With the support and assistance of the SM program, we have been recognized for taking at least 42 Actions for Sustainable Communities, from generating a carbon foot print and taking actions to lower it, maintaining community gardens, food forests, promoting the farmers market, Healthy Eating Active Living, Let's Move campaign, to establishing buy-local campaigns, local business directory, green purchasing practices, to promoting residential energy efficiency and pet waste management.

While other programs offer specific environmental services, the SM program framework helps provide our elected officials, staff, and local Green Teams the education and technical assistance needed to develop our own capacity to manage local sustainability issues and take advantage of resources already available.

Through the SM program we have received training and information necessary to communicate the importance of sustainability to our residents, established a plan for taking action, and increased our ability to pursue funding to improve our community. The SM program has become a primary driver for building community capacity to engage in sustainability projects, not just in our town but the program has created a network of like-minded communities throughout the state.

By supporting the SM program, the University of Maryland is honoring their commitment to support Maryland communities. The University of Maryland should take this opportunity to expand and support this high performing program in order to increase technical assistance, coordinate local efforts, and encourage more communities to take action.

Sincerely,

Emmett V. Jordan
